REPORT

OF THE

COMMITTEE ON FINANCE.

The Joint Standing Committee on Finance, in conformity with the requirements of the ordinance prescribing their duties, "establishing a system of accountability in the expenditures of the city," submit to the City Council their Annual Report of the receipts and expenditures of the financial year ending February 1, 1856.

We have examined the Treasurer's books, and those of the City Clerk, and find that all payments therein recorded are duly authenticated with appropriate vouchers, and that the several items, footings and balances are correctly cast and stated, and that the books of those officers have been faithfully kept, and with a system that cannot fail to give satisfaction to the tax payers of the city.

REPORTS.

THIRD ANNUAL REPORT

OF THE

COMMITTEE ON THE CITY FARM.

To the Board of Mayor and Aldermen :

The undersigned, Joint Standing Committee on the City Farm, having attended to the duty of taking an inventory of the real and personal property of the Farm, would submit the following statement as the third annual report under the City charter :

Appraised value of farm and buildings in 1855,	7,400 00
Appraised value of personal property in 1855,	2,811 12

Total,\$10,211 12

Appraised value of farm and buildings in 1856,	7,400 00
Appraised value of personal property in 1856,	2,839 63

Total,\$10,239 63

Whole number now at the Farm,	20
Number who have received aid at the Farm,.....	14

The receipts and expenditures for carrying on the Farm during the last year will appear under the report of the Overseer. We cannot close this report without adding an approval of what was said in the two last annual reports by

the Committee on the Farm, in respect to the Overseer and Matron, Mr. and Mrs. Gill, who fully sustain the reputation awarded them by the former committee, in their system and order of arrangement in carrying on the Farm, and taking care of the unfortunate paupers. We found the house in complete order, a pattern of neatness from cellar to attic ; and in the barn and sheds, there was a place for every article and every article in its place.

Respectfully submitted,

Tyler, C. D. Rowell, F. Morse, S. Davis, D. Brogton.

HOOK AND LADDER Co., No. 1, on Warren St., in the same building with Engine No. 4, has thirty-nine members, viz: Chas. K. West, *Foreman*, John C. Hall, *2d Foreman*, E. Eastman, *Clerk*, and Jos. B. Smart, John L. Gordon, F. S. Crawford, Thos. B. Jones, Harry Houston, Curtis White, S. N. Farnsworth, Moses M. Chick, Joel C. Danforth, Chas. Burnside, I. A. Hill, S. S. Graves, Josiah B. Sanborn, Chas. F. Barton, Gust. Walker, J. L. Cilley, John C. Pillsbury, Dexter W. Smith, Chas. W. Batchelder, Thos. P. Hill, Robt. Crummett, Lucius Buker, Jeremiah Smith, J. P. Wheeler, J. T. Elliot, M. Dennett, Chas. Dennett, R. L. Tilton, N. M.

Weeks, Geo. Fellows, S. Batchelder, Thos. Burton, J. Leehy, Chas. C. Shaw, Wm. R. Walker.

Especial pains have been taken by the Board of Engineers and by the officers having in charge the various engines and other apparatus belonging to the Department, to have them in good order, and it is believed that the engines, reservoirs, &c., were never in a better condition, than at the present time.

In addition to the above, there are two old engines, one at the north end of Main St., and one at the south end, which have been put in order and supplied with hose which was not considered strong enough for the larger engines, but which will answer for engines of that size. These are now used and kept in good working order by lads of from fourteen to eighteen years of age, who are neatly uniformed, and make a very creditable appearance.

There have been but three alarms of fire during the past year, at which any portion of the Department was called out; the first was at the house of James Frye, at East Concord, at which No. 7 engine only was called out—damage trifling. The second was at the Bog, so called, May 27, to which only No. 6 was called—damage small. The third, Aug. 21, was the house on School St., occupied by Mr. J. Cummings, totally destroyed—loss about \$1000.

You will see by the report from Engine Co. No. 7, situated at East Concord, that that engine has only three hundred feet of hose, a quantity altogether inadequate to the wants of that portion of the city. It seems highly necessary that there should be furnished for that company at least one hundred feet additional.

There have been no new reservoirs built within the past year, and for the location and number already existing, I would refer you to the report of the late Chief Engineer. The interest of the city would seem to require that a reservoir should be constructed during the coming season in the vicinity of the new City Hall. There is also a large portion of the southwesterly part of our city, including the vicinity of Pleasant, Rumford, Merrimack, Warren, School and Tahanito streets, and, indeed, all that section of the city now thickly covered with wooden buildings, which, in case of fire, would have no water to be relied upon short of from one to two thousand feet.

The entire expense of the Fire Department during the current year, for pay of Engineers and Firemen, new articles purchased, repairs of hose, reservoirs, &c., has been \$1115.55.

All which is respectfully submitted,

TRUE OSGOOD, *Chief Engineer.*

The undersigned has attended every Police Court which has been held since his appointment.

The attendance of trials in the Police Court comprises but a small part of the labor incident to the office of Police Justice in comparison with the making of records and copies of cases ordered to other Courts, receiving bills of cost, and paying out the same in small sums to numerous persons as witnesses and others, entitled to the same, collecting small bills due the office, &c.

From an examination of the records of the office, it will be found that the Police Court is a source of revenue to the City. No suitable place has yet been provided by the City in which to hold the Police Court, as required by the City charter. During the brief period in which we shall hold the office of Police Justice, we shall be satisfied with such accommodations as the City Council shall deem suitable and proper. But inasmuch as the people are now being taxed for the erection of a building which *should* afford every necessary accommodation, would it not be a matter of economy, seasonably to prepare a suitable room in that building for the Police Courts, which would not be under the control of the county or its officers?

REPORT

OF

COMMITTEE ON CITY LIBRARY.

In obedience to the requisition of the sixth article in the fourth section of the Ordinance of the 25th of August, 1855, establishing the Public Library, the Trustees beg leave to submit to the City Council the following

REPORT.

By reason of the room designed for the accommodation of the library being not yet finished, and the Trustees not deeming it expedient to procure and fit up one for a few months only, even were they furnished with the means to do so, the progress made toward putting the Library in operation has necessarily been slow, and may to some seem even tardy; but the Trustees see no way by which, under the circumstances, its progress could have been hastened.

The Board has been organized by the choice of a President, Secretary and Treasurer.

It has also adopted a code of By-laws for the regulation and management of the Library, and appointed committees for the several purposes of purchasing, numbering and arranging the books, superintending the fitting up and preparing the room for the accommodation of the Library, and for other incidentals necessary to carry the enterprise into full effect.

The fifteen hundred dollars, appropriated for the establishment of the Library by the City Council, has been drawn from the City Treasury by the Treasurer of this Board, and deposited in Merrimack County Bank, ready to be drawn from time to time, as it may be needed for the purchase of books, the preparation of the room, &c.

No money has yet been expended.

A few donations in books have been received, and many persons have signified their intention of doing so, whenever the Library shall go into successful operation.

The donation of \$1300, pledged by three liberal gentlemen in Boston, natives of this City, (to wit,) \$500 by John L. Emmons, Esq., \$500 by John C. Abbott, Esq., and \$300 by Octavius Rogers, Esq., has not yet been collected or called for, but will be, when needed for the purchase of books.

It is the intention of the Trustees, as soon as arrangements can be made, to proceed to purchasing books and preparing them for the Library.

It will be important that they all be numbered and entered upon the catalogue before being placed upon the shelves in the library. A due regard to economy will also require that many of the volumes be covered. All this will require much time and labor, yet it is intended that it shall be accomplished in season for them to be removed to the *Library Room* by the time that shall be prepared for their accommodation.

The sum of \$1500 having been appropriated towards this enterprise by the City Council, \$1300 pledged by natives of this City, but residing and doing business in Boston, beside liberal donations in books and money which may be expected from our resident citizens, it will at once appear manifest that the library will go into operation under very favorable circumstances, and with every reasonable prospect of complete success and of permanent usefulness.

To accomplish this desirable object, however, it will be necessary to enlist in its favor, not only the sympathy, the interest, and the patronage of the citizens of Concord, but also the whole strength of that feeling by which citizens of the same community are bound to the place of their birth or adoption, and which impels them forward in the promotion of great and important enterprises.

The Trustees consider it highly important that the Public Library become *the cherished institution* of the City; of all the *people* of the City; as its benefits are equally *accessible* to *all*, it is *hoped* that *none* will feel indifferent to its progress and usefulness. It is hoped that the City Council will, from year to year, make liberal appropriations for its growth and prosperity, that all our citizens will most cheerfully bestow their sympathy and munificence upon it, and feel an ardent and abiding interest in its growth, prosperity and usefulness; that our public spirited and liberal individuals will make it *the* object of their generosity and patronage; and that all alike will endeavor to make it what the Trustees hope and wish it may be, an honor and ornament to the City, and useful to the rising generation and to the public.

They hope and confidently expect, that from time to time considerable donations in books will be made to the library by our citizens, and that they will take great pleasure in so doing, to requite, in this way, the advantage derived from the use of the library.

Beside the valuable collections which can hardly fail to be received in this way, it may with equal confidence be anticipated that frequent accessions will be made to the library by the donations of single volumes, or of a small number of books, which, however inconsiderable in a single case, become in the course of time, an important source of increase to the library.

The Trustees, therefore, embrace the opportunity, in presenting this report, to solicit the liberality of the City Council and of the citizens of Concord, and ask them to sustain by their patronage, their zeal, and their warmest sympathies, an institution calculated to be of such vast importance in the advancement of literature and useful knowledge in their midst.

Should the Public Library win the public favor, as the Trustees most fondly hope and confidently anticipate, it will soon reach a size which will be, not only imposing, and in the highest degree useful to the community, but also an honor and an ornament to the City of Concord, and an institution in which she may entertain a just and laudable pride.

Should the expectations of the Trustees be realized and should the Public Library be found to supply an existing defect in our system of education, not only the Trustees, but all friends and patrons of the institution will be highly gratified.

With these views, the undersigned, Trustees of the Public Library, submit the subject to the consideration of the City Council, and to the citizens of Concord.

REPORT

OF THE

SUPERINTENDENT

OF

REPAIRS OF HIGHWAYS & BRIDGES.

To the Board of Mayor and Aldermen of the City of Concord:

The Superintendent of Repairs of Highways and Bridges has the honor to make the following report:

Immediately after receiving my appointment, I commenced operations, by making the following appointments of Sub-Agents in the different Highway Districts of the city, not under my own supervision, together with the amount of tax apportioned to each District.

Highway District No.	1, Reuben Goodwin,	49	29
“ “ “	2, John Ewer,	34	77
“ “ “	3, Charles Graham,	47	02
“ “ “	4, Henry H. Potter,	43	22
“ “ “	5, Abraham D. Mann,	71	87
“ “ “	6, James Sanborn,	229	66
“ “ “	7, John Lock,	19	82

Highway District No.	8,	Gilman W. Holt,	28	60
"	"	10, William H. Brown,	144	83
"	"	11, Alfred C. Abbott,	22	38
"	"	12, Hiram Simpson,	345	10
"	"	13, Eli Elliot,	48	64
"	"	14, Ephraim C. Elliott,	27	33
"	"	15, Ephraim F. Swett,	21	26
"	"	16, Francis F. Hoit,	37	51
"	"	17, Wm. B. Thompson,	28	40
"	"	18, Samuel Ames,	60	75
"	"	19, Henry Martin, Jun.,	30	16
"	"	20, Edward P. Farnum,	29	46
"	"	21, John Ballard,	40	00
"	"	22, Charles Hall,	48	84
"	"	23, John Corliss,	72	62
"	"	24, Andrew S. Smith,	22	17
"	"	25, Isaac Abbott,	78	12
"	"	26, Woodbury Flanders,	34	59
"	"	29, Jephtha G. Holmes,	26	70
"	"	30, Elbridge Dimond,	32	70
"	"	31, Reuben M. Myers,	11	47
				<hr/>
				\$1679 75

In the above Districts, the tax has mostly been paid in labor, and so far as I have been able to ascertain, has been laid out for the best interests of the city.

In Highway Districts No. 9, 27 and 28, which comprise Wards 4, 5, 6, and part of 7, which, by the city ordinance, were made one district, and placed under the immediate care of the Superintendent, the tax amounts to the sum of 4423 50
 Rec'd from sundry individuals on account of drains, 40 00
 Rec'd from City of Concord for sewers as per vouchers,

122 05

 \$4585 55

Of the above amount there has been col-

lected in cash the sum of.....3649 74

In work, 473 64

\$4123 38

Leaving a balance in the superintendent's hands un-

settled of.....\$462 17

Of the above balance I think I can safely report that there will not remain at the close of the year not exceeding one hundred and fifty dollars of taxes uncollected, and of those, two thirds of them are poll taxes of the small amount of 39 cts. each, against individuals which would cost more to collect than they are worth.

Soon after I commenced repairs, several of the citizens called upon me for edge stone for side walks, and as I could not ascertain that there had been any definite or settled policy to guide me in the premises, I adopted this plan—to allow them 12 1-2 cts. per foot for the stone, they paying the expense of setting, which in most cases was entirely satisfactory. Under that agreement, I have paid for 2512 feet of stone at 12 1-2 cts. per foot, \$314,00, and have laid down 494 feet of flag stones at a cost of \$63,07.

Whenever I could use the gravel that belonged to the city, I have done so in all cases, but it is so coarse that a good road cannot be made with it. I have therefore been under the necessity of purchasing about two thousand loads at an expense of \$154. I have taken from the city lot, and from all other sources, as near as I can ascertain, about three thousand loads.

I purchased of Chandler Eastman two ox carts, for which I paid \$130. It was my intention to have bought two yoke of oxen, but upon enquiring I found that they were so high, and feed so dear, the interest of the city would be better subserved by hiring teams.

I have paid A. B. Currier for 6 shovels and 1 hoe, \$6,58 ; Lowell Eastman for snow plough, &c., \$5,02 ; James Hoit for grates for drains, &c., \$6,31.

I commenced work as Superintendent the 17th day of April, 1855, and I have charged in my account for one hundred and eighty days service at \$2 per day, \$360,00, to Feb. 20, 1856. The balance of moneys which have come into my hands not specified above, has been paid out for labor as my vouchers will show.

Belonging to this Highway District are 2 ox carts nearly new, 2 snow ploughs, 5 shovels, 3 picks, 3 lanterns and 2 stone hammers.

Before closing this report, if not deemed out of place, I will make for your consideration a few suggestions.

The land on which the compact part of the city is built, is so flat and wet, and there has so little attention been paid to

drains for carrying off the water from the streets, it seems to be very necessary that some regular system of drainage should be entered upon at once. The streets could be kept in better order and at much less expense.

Lighting the streets is a subject also which to my attention has frequently been called. Private individuals are putting up lamps to suit their own convenience, but the time will probably soon come, when there will have to be some regular plan adopted, and these private lamps will become the property of the city. One suggestion which I am disposed to think favorably of is, that a separate tax be assessed upon the inhabitants living in the compact part of the city, to defray the expenses of the same. The tax would be trifling compared with the comfort enjoyed, as well as the greater security to property. I think nine out of ten would vote the tax if called upon.

In order to protect and save the south end of Federal Bridge from being undermined, the land on the upper side should be well rubbled. I think the Montreal Railroad Co. would assist in the work, as their bridge is as much exposed as ours is.

I commenced to rubble the river bank near the residence of the late Countess Rumford. I did not complete it for want of time. I think it should be done in order to save the road.

I would call your attention to one other subject, and that is, to the purchase of a lot of land having suitable material for making roads. I have been obliged this year to pay more than the interest on twenty five hundred dollars for gravel, and should have had to pay much more had it not been for the generous gift of a number of hundreds of loads of most excellent gravel from Messrs. Luther Roby and Joseph French, 2d. Not much calculation can be made upon getting gravel, except by paying for it by the load, and at the rate of from one hundred and fifty to two hundred dollars per year, unless the city provide a lot with the suitable material.

So little attention has been paid to laying out new streets, that many of them are left so narrow that it is impossible to make a suitable road with side walks. Would it not be well to have an ordinance in regard to it? I find that the highway in very many instances has been materially encroached upon. In some instances whole buildings are standing in the highway, in others, parts of buildings, and in a great many

instances fences have been put up enclosing from two to ten and fifteen feet of the highway. In order to save neighborhood quarrels and litigation, I would recommend that a Surveyor be appointed to run out the streets, and place bounds so that no dispute need arise in regard to them.

I am sorry to say that owing to the drenching rains of last fall, the roads were not left in so good condition as I could desire, but no one can contend against the elements, and I am in hopes that the roads in the city of Concord will compare favorably with those in the neighboring towns.

I cannot close this report without saying that in all my efforts to lay out the moneys entrusted to me for the best interest of the city, I have been ably and faithfully seconded by Mr. William T. Locke. I hardly know how I should have got along without his valuable services. He has always been ready, in all weathers and at all times, to assist me in improving the streets, to the best of his abilities. I may not have done every thing to suit every body. I have not always been suited myself, but I can conscientiously say that all I have done or attempted to do, has been done with an eye to the strictest economy, and what, in my judgment, was for the best interests of the city.
